MOBILITY:

LIMIT, LESS

Life is all about variety. One day you're shopping for groceries, the next day you're off to the mountains for a completely different kind of adventure. That's why you need a vehicle that's as versatile as you, and where the interior of the Pilot truly shines.

DUAL-POSITION REVERSIBLE CARGO LID

Flip the cargo lid up when you need a deeper space for taller items, or turn it over to keep the carpeted side clean when carrying wet or dirty items.*

FLEXIBLE CARGO MANAGEMENT

Whether you want to fit a double stroller or a giant cooler, the Pilot has the cargo capacity to help meet your needs.*

*Honda reminds you to properly secure cargo items.

SAFETY / DRIVER-ASSISTIVE:

LOOKING OUT FOR YOU

The available safety and driver-assistive technologies can help you sense things you might miss while driving. In some cases, they can even help you avoid a collision or mitigate its severity.

5-Star Overall Vehicle Score*

Trims with front crash prevention features and specific headlights.

COLLISION MITIGATION BRAKING SYSTEM™ (CMBS™)⁵

CMBS can help bring your Pilot to a stop by automatically applying brake pressure when the system determines that a frontal collision is unavoidable.

ROAD DEPARTURE MITIGATION SYSTEM (RDM)⁶

RDM can determine if you cross over detected lanes without signaling, can provide steering assistance to help you stay in your lane or provide braking to keep from leaving the roadway entirely.

LANE KEEPING ASSIST SYSTEM (LKAS)⁷

With your hands on the steering wheel, long highway drives are easier with LKAS, which subtly adjusts steering to help keep the Pilot centered in a detected lane.

ADAPTIVE CRUISE CONTROL (ACC)⁸

ACC helps you maintain a set following interval behind detected vehicles for highway driving.

BLIND SPOT INFORMATION SYSTEM (BSI)⁹

BSI uses radar sensors to detect the presence of vehicles to the side and behind the Pilot, to assist you during lane changes. Warning indicators alert you if the system detects a vehicle in your blind spot.

CROSS TRAFFIC MONITOR¹⁰

Sensors at the rear corners of the Pilot can detect approaching vehicles from either side when backing up. The driver is alerted by an audible chime and arrows within the rearview camera display.

PERFORMANCE:

AT THE TOP OF ITS GAME

The Pilot comes with a 3.5-liter direct-injection V-6 EarthDreams® Technology engine that helps produce 280 horsepower¹¹ and 262 lb-ft of torque.¹¹ The best part about all that power? The Pilot still received an impressive 27-mpg highway rating.*

9-SPEED AUTOMATIC TRANSMISSION

The Pilot literally leads the way as the first Honda to offer a 9-speed transmission (Touring, Elite). And sporty paddle shifters help you appreciate each one.

*20 city/27 highway/23 combined mpg rating for 2WD 9AT models. Based on 2017 EPA mileage ratings. Use for comparison purposes only. Your mileage will vary depending on how you drive and maintain your vehicle, driving conditions and other factors.
