

A deeper shade of green.

In the world of alternative-fuel vehicles, there's one clear choice. The natural gas-powered Honda Civic GX is not only friendlier to the environment,* but it also uses less-expensive fuel. And on top of that, the GX is fun to drive, thanks to its nimble handling, a responsive 113-hp, 1.8-liter i-VTEC® engine and a smooth-shifting 5-speed automatic transmission.

*AT-PZEV-rated by the California Air Resources Board (CARB).

The GX can save you time not only at the pump, but also on the road. As an alternative-fuel vehicle, the GX can qualify for **admission into carpool lanes** in many states¹ – even with only the driver aboard. As for additional forms of savings, available GX purchase and tax incentives² may start with a big \$4,000 federal tax credit.

Pass by every pump.

What could be more convenient than filling up your vehicle at home? When your GX is teamed up with Phill, an easy-to-use refueling system, you can **fuel the GX right in your own garage** by tapping into

your home's gas supply. And mile for mile, natural gas is typically less costly than gasoline, especially at residential rates. Phill might also qualify you for more incentives²

including a federal tax credit of \$1,000. If you'd like more details about the GX and Phill, visit your nearest Civic GX dealer or check out **civicgx.com** and **myphill.com** now.

Declare your energy independence.

While most oil is imported, almost all of our natural gas comes from North America. But this is only one of the virtues of this plentiful fuel. It also helps make the GX easier on the environment – as evidenced by an EPA certification that showed this Civic to be **the cleanest internal-combustion vehicle on Earth.**³ Its lower greenhouse gas emissions also make for less of an impact on global warming.

It's all Civic at heart.

Though it may have a different kind of fuel coursing through its veins, the GX retains all the features that have made the Civic one of the most popular cars in America. Things like its spacious comfort, sleek style and easy handling. And it has all the Civic safety features, like six airbags and the highly sophisticated **Advanced Compatibility Engineering™ (ACE™)** body structure – tough enough to garner a 5-star frontal crash-test rating from the NHTSA.*

*Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov).

ENGINEERING

	GX
Engine Type	In-Line 4-Cylinder
Engine Block/Cylinder Head	Aluminum-Alloy
Displacement (cc)	1799
Horsepower @ rpm	113 @ 6300
Torque (lb.-ft. @ rpm)	109 @ 4300
Compression Ratio	12.5:1
Valve Train	16-Valve SOHC i-VTEC®
Alternator Output	12V-90A
Battery Output	12V-36Ah (5hr)
