PILOT
The all-new Honda Pilot is all about creating opportunities. To travel new places or revisit a favorite. To make a new acquaintance or reconnect with an old one. To try something new or rediscover a fun pastime. And to do it all in a vehicle restyled and reimagined to make every journey both seemingly effortless and eminently enjoyable. That’s life in the Pilot.
The Pilot is at home wherever you park it. It’s been completely restyled with a bold, new look that makes it stand out in a crowd and sleek, clean lines that help it fit in to any environment.

The world is full of possibilities. Go explore them. The new intelligent Variable Torque Management™ (i-VTM™) AWD system helps you hit the road with the confidence you’ll stay on it (select models).
INTELLIGENT TRACTION MANAGEMENT
Sandy strands of beach. Snowy mountain roads. Muddy rain-soaked routes. Simply push a button to select the mode* that matches your driving conditions and the Pilot will optimize handling for that type of terrain (EX and above).

*Snow mode only on 2WD models. Snow, Mud and Sand modes on AWD models.
The beauty of the Pilot, aside from the obvious exquisite styling, is that you don’t have to travel far to feel like you’re getting away from it all. That’s because the Pilot is packed with upscale amenities that put you in a better place no matter where you’re headed.
Most SUVs boast forward-thinking technology, but the Pilot ensures its innovations reach the rear seats, too. While it’s loaded with advanced features that help keep the driver in touch and at ease at all times, higher trims give rear-seat passengers extra luxuries to enjoy.

PANORAMIC ROOF
Follow the sun, chase the moon or just stare up at the sky through a panoramic roof that provides another way to see the world (Elite).

HEATED 2ND-ROW CAPTAIN’S CHAIRS
Although everyone rides in style in the Pilot Elite, 2nd-row passengers enjoy the added pleasures of a pair of heated captain’s chairs.

ONE-TOUCH 2ND-ROW SEATS
Accessing the 3rd row is now effortless. Easy-to-reach one-touch buttons automatically slide the 2nd-row seats forward without the need to push, pull or prod (EX-L and above).
SIGNATURE LED HEADLIGHTS
The Pilot offers LED Daytime Running Lights (EX and above) with LED headlights (Elite) for a more stylish look and more illuminating performance.

BLU-RAY REAR ENTERTAINMENT
Passengers in the 2nd and 3rd rows enjoy high-definition entertainment thanks to the addition of a Blu-ray/DVD player (Touring, Elite).

INTEGRATED SUNSHADES
Let the sun shine in or enjoy the shade. The choice is yours with easily accessible built-in 2nd-row shades (EX-L RES and above).

PUSH BUTTON START
Every Pilot now comes with this feature so you can begin your everyday getaways with the push of a button.

CONNECTIVITY
There are many ways to plug and play via HDMI® (EX-L RES and above) and multiple USB ports (EX and above), or an MP3/auxiliary input jack.

MULTI-INFORMATION DISPLAY
The easy-to-read Multi-Information Display is right up front, ensuring that the information you want is always at the ready.

HD RADIO™ AND DIGITAL TRAFFIC
Stay up to date on current music trends with HD Radio (Elite) and current traffic conditions with the subscription-free Honda HD Digital Traffic (Navi-equipped models).

HondaLink®
By making news, social media, audio books and more accessible from the Display Audio screen, you’re never far from the info you want (EX and above).
Adapt to change.

No two days are ever the same. So you need a vehicle that can quickly shift focus to match your evolving interests. The Pilot does just that with an agile interior delivering a seemingly limitless level of versatility.

DUAL-POSITION REVERSIBLE CARGO LID
Flip the cargo lid up when you need a deeper space for taller items, or turn it over to keep the carpeted side clean when carrying wet or dirty items.

FLEXIBLE CARGO MANAGEMENT
Whether you want to fit a double stroller or a giant cooler, the Pilot has the cargo capacity to help meet your needs.*

MOBILITY

Pilot EX-L shown with Beige Leather.

*Honda reminds you to properly secure cargo items.
9-SPEED AUTOMATIC TRANSMISSION
The new Pilot literally leads the way as the first Honda to offer a 9-speed transmission (Touring, Elite). Race-inspired paddle shifters help you appreciate each one.

Honda LANEWATCH
Change lanes with confidence. Honda LANEWATCH uses a small camera to put your passenger-side view right in front of you on the Display Audio screen (EX, EX-L, Touring).

Outperform every day.

When it comes to performance, the Pilot delivers in more ways than one. Take the new 3.5-liter direct-injection V-6 EarthDreams® Technology engine, for example. It produces 280 horsepower* and 262 lb-ft of torque*, but still helped the Pilot receive an impressive 27-mpg highway rating.†

*SAE net. †20 city/27 highway/23 combined mpg rating for 2WD 9AT models. Based on 2016 EPA mileage ratings. Use for comparison purposes only. Your mileage will vary depending on how you drive and maintain your vehicle, driving conditions and other factors.
Pilot has achieved both a 5-star overall safety rating from NHTSA and a 2015 IIHS TOP SAFETY PICK+ when equipped with front crash prevention. The full suite of available technologies it offers help keep potential hazards on the road from turning into something more.

**SAFETY**

**Sensible safety.**

**COLLISION MITIGATION BRAKING SYSTEM**

This innovative offering can help bring your Pilot to a stop by automatically applying brake pressure when the system determines a frontal collision is unavoidable.

**ROAD DEPARTURE MITIGATION SYSTEM**

The RDM system can determine if you cross over detected lanes without signaling and can even provide steering and braking assistance to help you stay in your lane.

**LANE DEPARTURE WARNING**

If you make an unindicated and possibly unintentional departure from a detected lane, you’ll be alerted by warnings both visual and audible.

**FORWARD COLLISION WARNING**

Audio and visual alerts will warn you if this system determines you’re at risk of colliding with a vehicle it detects in front of you.

**ACE™ BODY STRUCTURE**

By distributing frontal impact energy more evenly through the vehicle, the Advanced Compatibility Engineering™ body structure helps protect passengers.

**SIGNATURE LED TAILLIGHTS**

LED taillights are an attractive and important addition, as they clearly signal your braking intentions to drivers behind you.

**SMARTVENT® AIRBAGS**

Front side airbags feature SmartVent technology designed specifically to help protect the driver and front passenger in the event of a side-impact collision.

**MULTI-ANGLE REARVIEW CAMERA**

Every 2016 Pilot comes with a standard multi-angle rearview camera with guidelines so you can get a better view when backing up.

*EX with Honda Sensing, EX-L with Honda Sensing, Touring and Elite.  †Requires that all occupants are seated and seatbelted and that all doors are closed.

†Honda reminds you and your passengers to always use seat belts and appropriate child seats. Children 12 and under are safest when properly restrained in the rear seat.

### EX-L & TOURING Features

- Multi-angle rearview camera with guidelines
- 280-hp, 3.5-liter i-VTEC V-6 engine with direct injection
- 6-speed automatic transmission
- Variable Cylinder Management (VCM)
- Hill start assist
- Intelligent Variable Torque Management (i-VTM4)
- 18-inch alloy wheels
- Multi-angle rearview camera with guidelines
- Tire Pressure Monitoring System (TPMS) with Tire Fill Assist and location and pressure indicators
- One-touch turn indicators
- Rear privacy glass
- Push button start
- Tilt and telescopic steering column
- Capless fuel filler
- Illuminated steering wheel mounted controls
- 5-inch color LCD screen
- Bluetooth® streaming audio
- HondaLink® 4G LTE®
- USB Audio Interface (additional 2 ports)
- 4.2-inch multi-information display
- One-touch power moonroof with tilt feature
- Power liftgate
- Leather-upholstered steering wheel
- Automatic dimming rearview mirror
- One-touch 2nd-row seats
- Front passenger’s seat with 4-way power adjustment
- Heated front seats
- Available Rear Entertainment System (RES) with 115-volt power outlet, HDMI® Interface and integrated 2nd-row sunshades
- Available Honda Satellite-Linked Navigation System with voice recognition and Honda HD Digital Traffic

### ELITE Features

- Intelligent Variable Torque Management (i-VTM4) AWD system
- Blind spot information system (BSI) with cross traffic monitor
- Rain-sensing windshield wipers
- Panoramic roof
- LED headlights with auto-on/off and high beam
- Heated steering wheel
- Perforated heated and ventilated front seats
- Perforated heated 2nd-row captain’s chairs
- HD Radio®

### TOURING Features

- 9-speed automatic transmission with Shift-By-Wire (SBW) and paddle shifters
- 20-inch alloy wheels
- Roof rails
- Body-colored parking sensors
- Blu-ray Rear Entertainment System (RES) with 115-volt power outlet, HDMI® Interface and integrated 2nd-row sunshades
- Blue ambient LED lighting
- USB ports (additional two 2nd-row ports) (5 total)
- 540-watt premium audio system with 10 speakers, including subwoofer

### GENUINE ACCESSORIES

- HD Radio®
- Perforated heated 2nd-row captain’s chairs
- Heated steering wheel
- Siri® Eyes Free
- Honda Sensing® suite of safety and driver-assistive features

### EX-L & TOURING Features

- 5.484 liters (115 gal) accessory fuel tank
- Rear seat entertainment system
- Head-up display
- High-beam assist
- Adaptive Cruise Control
- Pre-collision system with pedestrian detection
- Lane Departure Warning
- Lane Keeping Assist
- Road Departure Mitigation
- Blind spot information system
- Lane-Keep Assist
- SD Card Navigation Map Storage
- Backup camera
- 18-inch alloy wheels
- LED headlights with auto-on/off and high beam
- Heated steering wheel
- Perforated heated and ventilated front seats
- Perforated heated 2nd-row captain’s chairs
- HD Radio®
