THE 2017 CIVIC:

TWO WAYS TO TURN HEADS

A legend in reliability can look just as brilliant. The Civic, in both sleek 4-door Sedan and sporty 2-door Coupe, is a quick way to garner attention, and envy, on the road.

COUPE

Civic Touring Coupe shown in Energy Green Pearl with accessory wing spoiler.

SEDAN

Civic Touring Sedan shown in Cosmic Blue Metallic.
17-INCH ALLOY WHEELS
Sharp styling starts from the ground up. Accentuate every ride with stunning 17-inch alloy wheels (EX-T, EX-L, Touring).

EFFICIENT
The Civic earned an impressive 42-mpg highway rating,* thanks to its lightweight design, direct-injection technology and an efficient continuously variable transmission.

LED LIGHTING
LED Daytime Running Lights (DRL) make a distinctive impression. Touring models also feature all-LED headlights to enliven the look.

FAST
A 1.5-liter turbocharged and intercooled engine produces a thrilling 174 hp¹ and 162 lb-ft of torque¹ and a dual exhaust system helps optimize airflow (EX-T, EX-L, Touring).

17-INCH ALLOY WHEELS
Sharp styling starts from the ground up. Accentuate every ride with stunning 17-inch alloy wheels (EX-T, EX-L, Touring).

EFFICIENT
The Civic earned an impressive 42-mpg highway rating,* thanks to its lightweight design, direct-injection technology and an efficient continuously variable transmission.

CIVIC SEDAN
BORN TO CORNER
Clean lines paired with the latest technology and all the comfort of a true Honda icon add up to a driving experience you’re not likely to forget. Discover all the functionality you expect from Civic, with a flair for fun, too.
CIVIC SEDAN INTERIOR DESIGN:

INNOVATIVE ON THE INSIDE

There’s something special about a truly intuitive ride, with everything in its place. Premium feel from available features like heated front seats and a 7-inch Display Audio touch-screen can complete the experience.

ONE-TOUCH POWER MOONROOF
Driving a Civic is like a breath of fresh air—an available power moonroof helps you experience it with the push of a button.
FOR THE THRILL OF IT

Civic Coupe takes a distinct place in the hearts of those who love the road. The sport compact legend has an available turbocharged engine to nail hairpin turns and keep your body pressed to the seat.

WING SPOILER
Give your Civic an aerodynamic exclamation point with this color-matched Honda Genuine Accessory.

FRONT UNDERBODY SPOILER
Enjoy your Civic with a subtle, custom look, manufactured by Honda Genuine Accessories for a precise fit and easy installation.

17-INCH ALLOY WHEELS
These stunning 17-inch alloy wheels are designed exclusively as a Honda Genuine Accessory, helping make your Civic more one-of-a-kind.
Civic doesn’t sacrifice comfort for speed, and nowhere is that more apparent than inside the sporty Coupe. With options that range from relaxing to racy, you can unwind even while enjoying the ride of your life.

MANUAL SHIFTER
An available 6-speed manual transmission helps you master the performance domain of the Civic.
INTRODUCING THE ALL-NEW 2017 CIVIC Si:

DELIVERING EXCITEMENT FOR DECADES

The Civic Si has been thrilling drivers for over 30 years. With a new turbocharged engine, the latest Si is the most fearsome yet. Along with sport seats and an innovative technology suite, the 2017 Civic Si ensures you make the most of every drive.

STAND OUT IN THE Si

With a 205-hp, 1.5-liter turbocharged and intercooled engine, the Civic Si can easily lead the pack. But it doesn’t stop there. It makes every drive thrilling with features like deep bolstered sport seats, an aluminum shift knob, textured aluminum pedals, a rear wing spoiler and a center outlet exhaust system. The result is a vehicle that not only pushes the limits of performance, but of style as well.
The 2017 Civic Si utilizes a close-ratio 6-speed manual transmission with a helical limited-slip differential to help track through corners. Driver-focused displays such as G-force and boost gauges and a rev-limit indicator help enhance the fun. And the 192 lb-ft of torque provides enhanced off-the-line performance.
**INTERIOR FEATURES:**

Honda LANEWATCH™
Signal right and a small camera displays live video on your Display Audio screen, revealing nearly four times more than the passenger-side mirror alone (EX and above).

**STEERING WHEEL-MOUNTED CONTROLS**
Change the music or answer a call via Bluetooth® HandsFreeLink®. Your hands never leave the wheel, and your eyes never leave the road.*

Apple CarPlay™
The available Apple CarPlay feature allows you to access several iPhone® features on the Display Audio touch-screen.

Android Auto™
Android smartphone users can access Google Maps™, Google Now™ messages, music and other popular apps with the available Android Auto feature.

**REMOTE ENGINE START**
Available remote engine start lets you pre-heat or cool your Civic, and be ready to go when you reach the door.

**CENTER CONSOLE STORAGE**
A massive console with an adjustable beverage holder gives you enough room to store your essentials and hide your valuables.

**ELECTRIC PARKING BRAKE**
An electric parking brake replaces the conventional hand lever with a simple, sleek switch.

**POWER FRONT SEATS**
Easily find the perfect driving position with eight ways to adjust (EX-L, Touring Sedan). The front passenger enjoys 4-way power adjustment as well (Touring Sedan).

**HEATED OUTBOARD REAR SEATS**
These heated outboard rear seats help keep your passengers extra cozy (Touring Sedan).

*These responsibility. Some state laws prohibit the operation of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operation on your phone or audio device only when the vehicle is safely parked.
FORWARD COLLISION WARNING (FCW)\(^9\)

The FCW system can sense the presence of vehicles in front of you, and if it calculates that you’re at risk of colliding with a detected vehicle, it activates audible and visual alerts.

LANE KEEPING ASSIST SYSTEM (LKAS)\(^10\)

With your hands on the steering wheel, long highway drives are easier with LKAS, which subtly adjusts steering to help keep the Civic centered in a detected lane.

COLLISION MITIGATION BRAKING SYSTEM\(^{TM}\) (CMBS\(^{TM}\))\(^7\)

CMBS can help bring your Civic to a stop by automatically applying brake pressure when the system determines that a frontal collision is unavoidable.

ROAD DEPARTURE MITIGATION SYSTEM (RDM)\(^8\)

RDM can determine if you cross over detected lanes without signaling, can provide steering assistance to help you stay in your lane or provide braking to keep from leaving the roadway entirely.

LANE DEPARTURE WARNING (LDW)\(^11\)

A small camera searches for lane markings on the road. If it detects the driver making an unindicated lane departure, visual and audible alerts will signify the departure.

ADAPTIVE CRUISE CONTROL (ACC)\(^12\) WITH LOW-SPEED FOLLOW

ACC helps you maintain a set following interval for highway driving. After stopping, a tap on the throttle instructs the car to continue maintaining the desired interval.

Honda SENSING:

5-Star Safety Ratings

More Stars. Safer Cars.

5-Star Overall Vehicle Score *

Trims with front crash prevention features.

*Government 5 Star Safety Ratings are part of the National Highway Traffic Safety Administration’s New Car Assessment Program (www.safercar.gov).

TECHNOLOGY THAT SENSES

The available Honda Sensing\(^*\) suite of safety and driver-assistive technologies is designed to catch hazards you might miss while driving. It’s like an extra set of eyes and ears to help keep your drive secure.
ADVANCED COMPATIBILITY ENGINEERING™ (ACE™) BODY STRUCTURE
The ACE body structure is a Honda-exclusive body design that enhances occupant protection and crash compatibility in frontal collisions.

SMARTVENT® AIRBAGS
The SmartVent front side airbags are designed specifically to help protect the driver’s or front passenger’s upper torso in the event of a side-impact collision.

TIRE PRESSURE MONITORING SYSTEM (TPMS)
Because lost tire pressure can dramatically affect a vehicle’s performance, TPMS is designed to alert you if tire pressure becomes significantly low in any tire.

VEHICLE STABILITY ASSIST™ (VSA®)
WITH TRACTION CONTROL
VSA helps you stay on course in the event of an understeer or oversteer condition by braking individual wheels and/or reducing engine power to help restore your intended course.

MULTI-ANGLE REARVIEW CAMERA™
See more of what’s behind you and back up with confidence, thanks to the multi-angle rearview camera with guidelines, standard on every Civic.

ADVANCED BRAKING
An anti-lock braking system (ABS) helps prevent wheels from locking up when braking hard, while Electronic Brake Distribution (EBD) balances braking forces at each wheel based on how the Civic is dynamically loaded.

SMARTVENT® AIRBAGS
The SmartVent front side airbags are designed specifically to help protect the driver’s or front passenger’s upper torso in the event of a side-impact collision.

ADVANCED COMPATIBILITY ENGINEERING™ (ACE™) BODY STRUCTURE
The ACE body structure is a Honda-exclusive body design that enhances occupant protection and crash compatibility in frontal collisions.

MULTI-ANGLE REARVIEW CAMERA™
