Put range anxiety in the rearview mirror.

Sometimes, you want to drive an electric car. Sometimes, you need more flexibility. That’s why Honda created the Clarity Plug-In Hybrid. Charge up and drive on electricity, or tap into its engine for unexpected turns—all while spending less time at the pump.

Clarity Plug-In Hybrid Touring shown in Modern Steel Metallic with optional charging accessories.

*47-mile maximum EV mode driving-range rating. 340-mile combined gas-electric driving-range rating. Ratings determined by EPA. Use for comparison purposes only. Your driving-range will vary depending on driving conditions, how you drive and maintain your vehicle, battery-pack age/condition and other factors.
Clarity Plug-In Hybrid Touring shown with Beige Leather.

*Drive responsibly. Some state laws prohibit the operation of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operation on your phone or audio device only when the vehicle is safely parked.

Interior Features

Three Driving Modes
Select from Normal, ECON or Sport, to help optimize efficiency, power and handling.

Shift-By-Wire
Go from Park to Drive with the touch of a button, while enjoying a more spacious center console.

Deceleration Selectors
Choose between four levels of regenerative braking using the paddles mounted behind the steering wheel.

Steering Wheel-Mounted Controls
Change the song, make a call or get directions— all from your steering wheel!

Dual-Zone Automatic Climate Control
Set one temperature for the driver and another for the front passenger.

8-Inch Display Audio Touch-Screen
Touch, pinch and swipe your way through music, directions and more.

Apple CarPlay™ Integration
*Integration shown below.

Apple CarPlay provides access to Apple Music, Maps, Messages and phone calls through Siri and the Display Audio touch-screen.

Android Auto™ Integration
Android smartphone users can access Google Maps, Google Now™ messages, music and other popular apps with the Android Auto feature.
A new class of comfort.

Few hybrid vehicles provide the comfort or space you’ve come to expect from mid-size sedans. The Clarity Plug-In Hybrid stands out as the exception.

Spacious Interior
You’ll find more than enough room for five adults inside the Clarity Plug-In Hybrid.

Smartphone Pockets
Behind each front seat is a pocket designed for phones of all shapes and sizes.

Full-Size Trunk
The Clarity has a larger trunk than many of its competitors, with plenty of room for all kinds of cargo.

Heated Front Seats
The Clarity Plug-In Hybrid can quickly take the driver and front passenger seats from zero to toasty.

Premium Materials
The sophisticated, quiet cabin utilizes high-quality leather (Touring) and plant-derived materials.

Driver’s Seat with 8-Way Power Adjustment
In addition to two-position memory, the driver’s seat provides eight ways to adjust your seat with pinpoint accuracy (Touring).
Collision Mitigation Braking System™ (CMBS™)
CMBS can help bring your Clarity to a stop by automatically applying brake pressure when the system determines that a frontal collision is unavoidable.

Road Departure Mitigation System (RDM)
RDM can determine if you cross over detected lanes without signaling, can provide steering assistance to help you return to your lane, or provide braking to help keep from leaving the roadway entirely.

Lane Keeping Assist System (LKAS)
With your hands on the steering wheel, long highway drives are easier with LKAS, which subtly adjusts steering to help keep the Clarity centered in a detected lane.

Adaptive Cruise Control (ACC) with Low-Speed Follow
ACC helps you maintain a set following interval behind detected vehicles for highway driving. If the detected vehicle slows to a stop, ACC is designed to slow and stop your vehicle as well. After stopping, a tap on the throttle instructs the car to continue maintaining the desired interval.

Built for what-if.
Even the most attentive of drivers can miss things. That’s why we’ve equipped every Clarity with Honda Sensing®, a full suite of safety and driver-assistive technologies designed to assist and help protect you and your passengers.
PLUG-IN HYBRID

- 1.5-liter 4-cylinder engine with electric motor
- Electronic continuously variable transmission (eCVT) with sport mode and deceleration selection
- 212 total system horsepower*
- 47-mile EV mode driving-range rating*
- Honda Sensing® suite of safety and driver-assistive features
- Electric parking brake with automatic hold
- Hill start assist
- 18-inch alloy wheels
- Multi-angle rearview camera™ with dynamic guidelines
