2015 Natural Gas

NO GASOLINE? NO PROBLEM.

The Civic Natural Gas is powered by compressed natural gas—a clean and abundant low-emissions¹ alternative to gasoline. That means cleaner skies, 30 to 40 percent lower fuel costs* and reduced dependency on foreign oil.

On top of an impressive 38-mpg highway rating,* the Civic Natural Gas is so clean that some states offer it single-occupant access to HOV lanes.²

Efficiency isn't the only place the Civic Natural Gas excels. It comes standard with advanced safety features like Vehicle Stability Assist™ (VSA®), Advanced Compatibility Engineering™ (ACE™) body structure and a rearview camera.³

The Civic Natural Gas doesn't use a single drop of gasoline. Zip. Zero. There are plenty of CNG stations to choose from and it takes less than five minutes to fill up. Visit the U.S. Department of Energy to find a public station near you.
